ESSAR ENERGY TRANSITION

Consultation Feedback Form

Essar Energy Transition Hydrogen-Ready Combined Heat and Power Project > Phase 2

Essar Energy Transition is consulting on its proposals for a Hydrogen-Ready Combined Heat and Power (CHP) Project (the 'Proposed Development'). We are seeking your views to inform the ongoing development of the proposals. Details on the Proposed Development can be found in the consultation brochure.

This feedback form is your opportunity to share your views at a stage when our proposals are still under development and before the Development Consent Order (DCO) application is finalised and submitted.

This feedback form is split into two parts

1. Feedback on the Proposed Development
2. About you

The About You section is optional. It is your choice whether to answer these questions. We should be grateful for any information you are willing to share.

This survey should take approximately 5-10 minutes to complete.

The consultation will be live from Tuesday 20 October 2026 until Wednesday 18 November 2026. The deadline for submitting a response is 23:59 on Wednesday 18 November 2026.

ESSAR ENERGY TRANSITION

Section 1

Feedback on the Proposed Development

1 Having reviewed the consultation information, to what extent do you support the Proposed Development in principle?

- [ ] Strongly support
- [ ] Somewhat support
- [ ] Neither support or oppose
- [ ] Somewhat oppose
- [ ] Strongly oppose
- [ ] Unsure at this stage

Please use the box below to tell us more about why you gave this answer.

2 Please use the box below to tell us whether there are any particular benefits, issues or considerations relating to the need for the Proposed Development that you think we should take into account.

ESSAR ENERGY TRANSITION

3 Please use the box below to share any comments on the indicative location and layout of the Proposed Development. We would be particularly interested in hearing about any local factors or features that you think should inform the design.

4 Local knowledge is important in helping us develop our approach to construction management. Please use the box below to tell us anything you think we should consider, such as local traffic, access, community facilities, events or other matters that may be affected by construction activities.

5 Understanding the local area is an important part of our environmental assessment work. Please use the box below to tell us about anything you think we should consider, such as environmental features, community assets, or other matters that are important to you and your area.

6 Please use the box below to tell us any further comments or suggestions that you would like us to consider as part of the Proposed Development.
